International Tele-Healing, under the banner of the World Institute for Incurable Diseases (WIID), is a monthly 1.5 hour distant healing online program with Master Del Pe, a world-renowned Healing Master, and his team of international advanced healing specialists. This integrated approach to health and well-being is designed to help you and your loved ones achieve a more balanced Total Health Quotient; that is a more balanced sum of your physical health, energetic and vitality health, emotional health, mental health and spiritual health. Each session includes bio-mechanical exercises, breathing techniques and an energy healing meditation guided by Master Del Pe to help you boost your vitality, calm your emotions, sharpen your mind and awaken the power of your soul. We help you overcome your life concerns by going beyond the symptomatic issues and addressing the root causes so that you can not only take care of your current problems, but also heal your past, transform your present and empower your future.
